

Santa Monica Bay National Estuary Program (SMBNEP)
Governance Review
eSurvey

Background

Under US EPA National Estuary Program Guidance, the structure of governance for the Santa Monica Bay National Estuary Program (SMBNEP), the “Management Conference,” is required to be periodically reviewed. In June and December 2018, staff of US EPA and SMBNEP presented background on the structure of the SMBNEP and its component elements. This included the staff of US EPA, the staff of the Bay Foundation, and staff of the Santa Monica Bay Restoration Commission.

In December 2018, the SMBRC Governing Board held a board workshop in order for the Board to provide input on the current governance and any suggestions for changes and modifications to the overall governance structure, or to any of the specific elements of the governance structure, or any policies and practices. SMBRC’s Executive Committee and Watershed Advisory Council held similar workshops in January 2019. Members of these entities were also encouraged to provide their input by completing a preliminary questionnaire.

~~The Bay Foundation, in cooperation with the Bay Commission, developed~~ This eSurvey was developed based on initial input received from the workshop and completed questionnaires, as an opportunity for all members of the Management Conference, interested stakeholders, and members of the public, to provide more focused and qualified input on specific elements of the governance of the SMBNEP’s governance s, and any suggestions for changes and modifications to the overall governance structure, or to any of the specific elements of the governance structure, or any policies and practices.

We are particularly interested to know your thoughts on what’s working well, if and how current governance could be improved, and any specific suggested changes or modifications to any elements of the Management Conference (which including the GB, EC, TAC, WAC, TBF, and SMBRA) and the relationship of these committees to TBF. See attached table and chart for reference), or changes or modifications to any governance practices or policies of the SMBNEP that can contribute to improved performance and achievement of Comprehensive Conservation and Management Plan objectives for protecting, conserving, enhancing, and restoring Santa Monica Bay and its watersheds.

Commented [WG1]: Suggest to name all entities of the MCA here and attach the MC table and diagram from the last questionnaire to this survey. Because this survey is open to all interested stakeholders, we must anticipate that there are still people who do not know what the MC is composed of.
